

Product name: ODIN Sustainable Equities

LEI:

213800DJ5REVELQCDS35

Environmental and/or social characteristics

Did this financial product have a sustainable investment objective?

Yes

No

It made sustainable investments with an environmental objective:

in economic activities that qualify as environmentally sustainable under the EU Taxonomy

in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy

It made sustainable investments with a social objective:

It promoted environmental/social characteristics and while it did not have as its objective sustainable investment, it had a proportion of __% of sustainable investments

med et miljømål i økonomiske aktiviteter som anses som miljømessig bærekraftige i samsvar med EUs taksonomi

with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy

with a social objective

It promoted environmental/social characteristics but **did not make any sustainable investments**

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The EU Taxonomy is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

To what extent were the environmental and/or social characteristics promoted by this financial product met?

The Fund's sustainable investment objective is to invest in companies that make a significant contribution to a more sustainable future in the following areas:

- Renewable energy and energy transition
- Sustainable buildings and infrastructure
- Sustainable transport
- Circular economy and efficient resource utilisation
- Health, quality of life and social inclusion

In 2023, 77% of the Fund's investments were in companies that contributed to environmental objectives, and 23% of the Fund's investments contributed to social objectives.

The Fund's investments contribute to the UN Sustainable Development Goals on the environment, including Goal 7 "Affordable and clean energy", Goal 11 "Sustainable cities and communities", Goal 12 "Responsible consumption and production", and Goal 13 "Climate Action". The Fund has sustainable investments that contributed to the UN Sustainable Development Goals on social issues, including Goal 3 "Good health and well-being".

● How did the sustainability indicators perform?

The Fund's ESG-risk level – Low

In 2023, the fund's ESG-risk level was Low

Sustainalytics is the data provider and assesses companies' ESG risks. There are five risk categories: negligible, low, medium, high and severe. (For more information on the ESG ratings see: <https://www.sustainalytics.com/esg-ratings>)

Exclusions

No new companies were excluded this year, or in 2023, due to violations of the product criteria in the Sustainable and Responsible Investment Policy for Odin Forvaltning.

No new companies were excluded this year, or in 2023, due to violation of the norm criteria in the Sustainable and Responsible Investment Policy for Odin Forvaltning

The Fund's carbon intensity 25,14 tCO₂eq/mEUR

In 2023 the Fund's carbon intensity was 129,39 tCO₂eq/mEUR.

The carbon intensity shows the ratio of issuers' total emissions relative to their revenues, adjusted for portfolio weight.

Use of voting rights – 97%

In 2023 the use of voting rights was 97%.

The figure shows the share of the voting rights exercised by the Fund at the annual general meeting.

Dialogues with companies – 10

In 2023 the number of dialogues was 10.

Number of dialogues with companies regarding ESG-related topics.

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

The proportion of the Fund's investments in each of the sustainability themes:

| | 2023 | 2024 |
|---|--------------|--------------|
| Renewable energy and energy transition | 16 % | 14 % |
| Sustainable buildings and infrastructure | 41 % | 28 % |
| Sustainable transport | 13 % | 3 % |
| Circular economy and efficient resource utilisation | 13 % | 26 % |
| Health, quality of life and social inclusion | 17 % | 29 % |
| Sum | 100 % | 100 % |

● **What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?**

The Fund had sustainable investments in companies with revenues from activities that contribute to the UN Sustainable Development Goals on the environment, including Goal 11 "Sustainable cities and communities" and Goal 13 "Climate Action".

● **How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?**

The Fund's sustainable investments fulfilled the requirements of the Sustainable and Responsible Investment Policy for Odin Forvaltning:

- *None of the investments were in companies with revenues from excluded sectors.*
- *None of the investments were in companies in breach of international norms and conventions.*
- *None of the investments were in companies that have activities that in our judgement cause significant negative impacts on sustainability factors (the PAI indicators).*

— **How were the indicators for adverse impacts on sustainability factors taken into account?**

All companies in the Fund are assessed in terms of ESG. This assessment includes an analysis of the company's impact on the most significant negative impacts on sustainability factors as defined by the EU. Data has been obtained from an independent analysis provider and an assessment of PAI indicators has been performed on each company. Where data was not available from the external provider, the fund manager has made an independent assessment based on in-depth knowledge of each individual company. Via a dialogue, the Fund has engaged portfolio companies to ensure better information and good risk management of the companies' impact on the relevant and most significant negative sustainability impacts.

— **Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights?**

Nærmere opplysninger:

The sustainable investments were aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights. There were no breaches of these guidelines for any of the Fund's investments.

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and antibribery matters.

The EU Taxonomy for sustainable activities sets out a "do no significant harm" principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The "do no significant harm" principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

Data has been obtained from an independent data provider and an assessment of the most important negative impacts has been made. For some of the indicators, the Fund has absolute thresholds that companies cannot exceed. This applies to the indicators that largely overlap with the Sustainable and Responsible Investment Policy for Odin Forvaltning, such as indicators 4, 5, 10 and 14. No companies were in breach of these indicators this year. For the other indicators, the Fund focuses on seeing a positive trend in the figures over time. Several of the indicators have not been common for companies to report on. This applies in particular to indicators 5, 6, 8, 9, 11 and 12, where there is very low coverage in the reported figures. Where data is not available from an external supplier or the company's own reporting, the fund manager has made a separate assessment of the company's performance for relevant indicators. By means of dialogue and exercising voting rights, the Fund has engaged portfolio companies to ensure better information and good risk management of the companies' impact on the relevant and most important negative sustainability impacts.

| # | PAI-indicator | Unit | Result |
|---|--------------------------|---------------------------------|----------|
| 1 | Greenhouse gas emissions | Scope 1 (tCO2-eq.) | 827,3 |
| | | Scope 2 (tCO2-eq.) | 631,5 |
| | | Scope 3 (tCO2-eq.) | 177212,8 |
| | | Scope 1 + 2 (tCO2-eq.) | 1458,8 |
| | | Scope 1 + 2 + 3 (tCO2-eq.) | 178671,6 |
| 2 | Carbon footprint | Scope 1 + 2 + 3 (tCO2-eq./EURm) | 2106,0 |

| | | | |
|----|--|--|--------|
| 3 | Greenhouse gas intensity | Scope 1 + 2 + 3 (tCO2-eq./EURm) | 2543,1 |
| 4 | Exposure to companies that operate in the fossil fuel sector | % share in the portfolio | 5,5 |
| 5 | Proportion of consumption and production of non-renewable energy | Proportion consumption of nonrenewable energy | 62,4 |
| | | Proportion consumption of nonrenewable energy | 4,7 |
| 6 | Energy consumption intensity per high impact climate sector | Agriculture, forestry and fisheries (GWh/EURm) | - |
| | | Building and construction of facilities (GWh/EURm) | 0,0 |
| | | Electricity, gas, steam and air conditioning (GWh/EURm) | 0,0 |
| | | Industrial Engineering (GWh/EURm) | 0,2 |
| | | Mining (GWh/EURm) | - |
| | | Real property activities (GWh/EURm) | - |
| | | Transport & lagring (GWh/EURm) | - |
| | | Water supply, sewage, waste management and remediation (GWh/EURm) | - |
| 7 | Activities with a negative impact on biodiversity-sensitive areas | Wholesale and retail trade and repair of vehicles and motorcycles (GWh/EURm) | - |
| | | % share in the portfolio | 0,0 |
| 8 | Discharges to water | t/EURm | 2,5 |
| 9 | Proportion of hazardous waste and radioactive waste | t/EURm | 0,2 |
| 10 | Non-compliance with the principles of the UN Global Compact and the OECD Guidelines for Multinational Enterprises | % share in the portfolio | 0,8 |
| 11 | Lack of processes and mechanisms to monitor compliance with UN Global Compact principles and the OECD Guidelines for Multinational Enterprises | % share in the portfolio | 0,0 |
| 12 | Unadjusted gender gap in pay | % | 0,8 |
| 13 | Gender diversity of the Board of Directors | percentage of woman Board members | 34,9 |
| 14 | Exposure to controversial weapons (anti-personnel mines, cluster munitions, and chemical or biological weapons) | % share in the portfolio | 0,0 |
| 15 | Investments in companies without established measures to reduce CO2 emissions | % share in the portfolio | 30,4 |
| 16 | Lack of or deficiency in guidelines concerning respect for human rights | % share in the portfolio | 2,3 |
| 17 | No guidelines on combating bribery and corruption | % share in the portfolio | 0,0 |

Which investments were the most important for this financial product?

| Investments | Sector | %Weight | Country |
|--|-------------|-------------|----------------|
| Novo Nordisk B | Health Care | 4,90 % | Denmark |
| Andritz | Industrials | 4,72 % | Austria |
| Smurfit Westrock | Materials | 4,62 % | United States |
| A.O. Smith Corporation | Industrials | 4,57 % | United States |
| Molina Healthcare | Health Care | 4,45 % | United States |
| Core & Main, Inc. | Industrials | 4,25 % | United States |
| Volution Group | Industrials | 4,17 % | United Kingdom |
| Resmed Inc Common Stock | Health Care | 4,02 % | United States |
| Diasorin | Health Care | 3,97 % | Italy |
| Veralto Corp | Industrials | 3,95 % | United States |
| Aalberts N.V. | Industrials | 3,83 % | Netherlands |
| Deere & Company | Industrials | 3,73 % | United States |
| Bravida Holding | Industrials | 3,52 % | Sweden |
| Edwards Lifesciences Corp | Health Care | 3,50 % | United States |
| Nexans | Industrials | 3,26 % | France |
| Total of the 15 largest investments | | 61 % | |

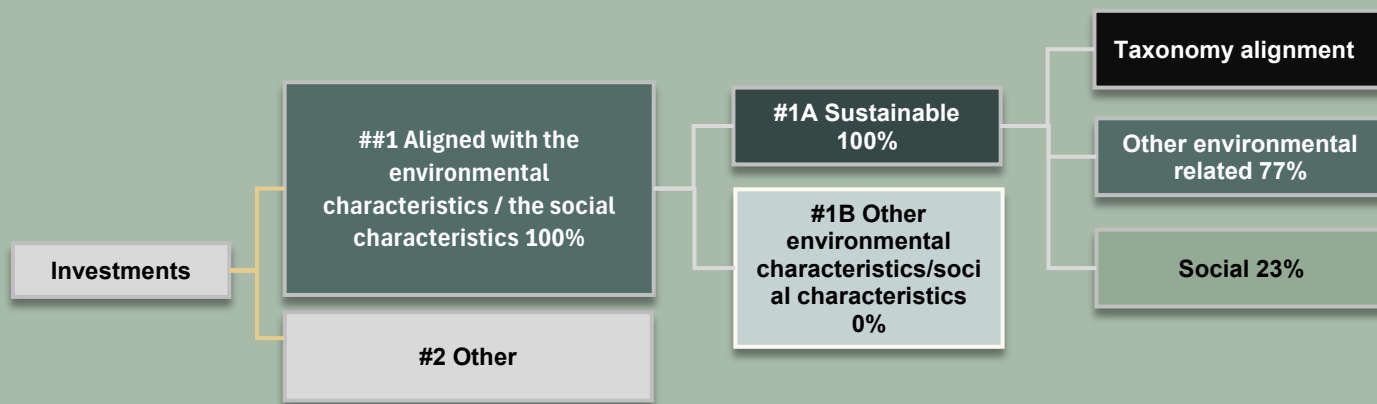

What was the proportion of sustainability-related investments?

● What was the asset allocation?

All of the Fund's investments are covered by Odin's Sustainable and Responsible Investment Policy. This means that there are clear exclusion criteria detailing what the Fund may not invest in. An assessment is made of the ESG risk level in all existing and potential investments in the Fund.

The list includes the investments constituting the greatest proportion investments of the financial product during the reference period, which is 01.01.2024 – 31.12.2024

Asset allocation describes the share of investments in specific assets.

#1 Aligned with environmental/social characteristics includes the investments of the financial product used to attain the environmental characteristics or social characteristics promoted by the financial product.

#2 Other includes the remaining investments of the financial product which are neither aligned with the environmental or social characteristics, nor are qualified as sustainable investments.

Category #1 Aligned with environmental/social characteristics covers:

- **Subcategory #1A Sustainable** includes environmentally and socially sustainable investments.
- **Subcategory #1B Other environmental/social characteristics** covers investments aligned with the environmental or social characteristics that do not qualify as sustainable investments.

In which economic sectors were the investments made?

| Sector | %Weight | Revenues related to fossil fuels (Y/N) |
|--|-------------|--|
| Industrials | 49,11 % | No |
| Health care | 28,07 % | No |
| Information technology | 10,23 % | No |
| Materials | 7,49 % | No |
| Consumer discretionary | 1,83 % | No |
| Utilities | 1,50 % | No |
| Total sectors not related to fossil fuels | 98 % | |
| Total sectors related to fossil fuels | | 0 % |

The remaining investment funds are cash deposits in bank accounts.

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

The Fund has not committed to a minimum proportion of sustainable investments with an environmental objective aligned with the EU Taxonomy.

Did the financial product invest in activities related to fossil gas and/or nuclear energy aligned with the EU Taxonomy¹?

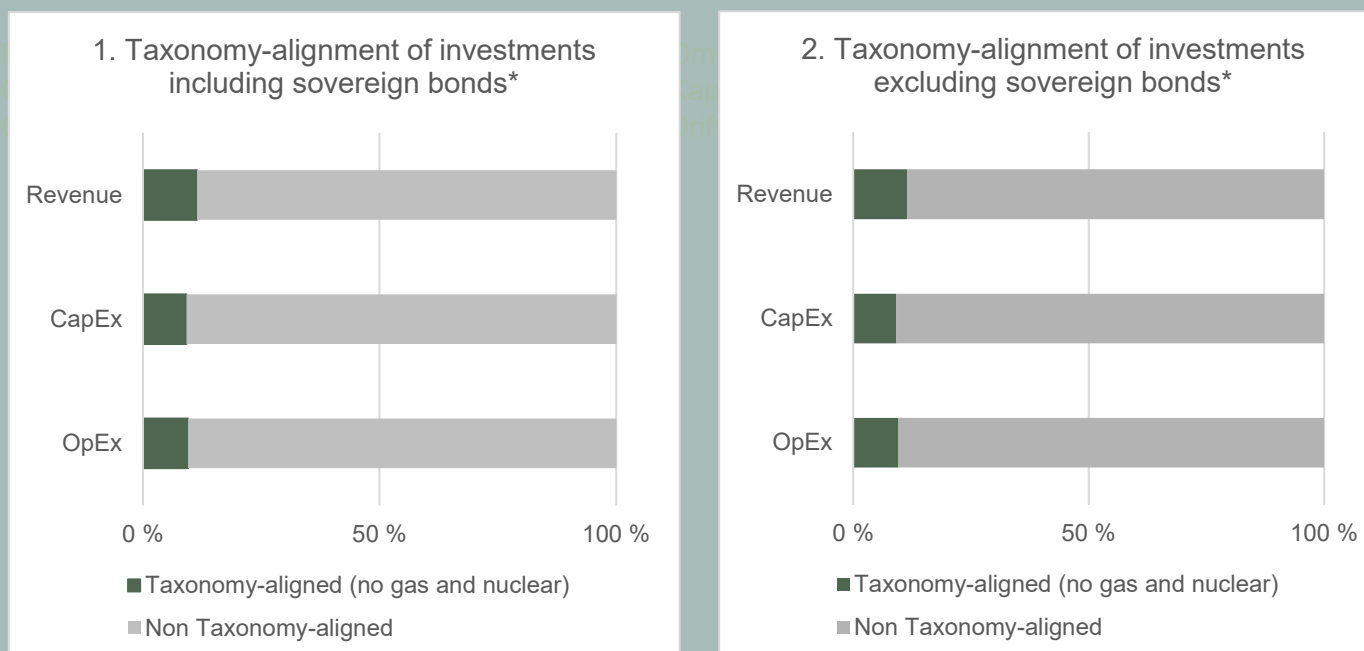

- Yes
- In fossil gas In nuclear energy
- No

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies.
- **capital expenditure (CapEx)** showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure (OpEx)** reflecting green operational activities of investee companies.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

The graph below displays in green the percentage of investments that were aligned with the EU Taxonomy. As there is no suitable method for determining the Taxonomy-alignment for sovereign bonds,* the first graph shows the Taxonomy-alignment of all investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy-alignment only for the investments of the financial product excluding sovereign bonds.

*For the purpose of these graphs, "sovereign bonds" consist of all sovereign exposures.

Transitional activities are economic activities for which low-carbon alternatives are not yet available and that have greenhouse gas emission levels corresponding to the best performance.

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any other environmental objectives of the EU Taxonomy (see the explanatory note in the margin to the left). The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214

- **What was the share of investments made in transitional and enabling activities?**

The share investments in transitional and enabling activities have not yet been mapped.

- **How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?**

| | 2023 | 2024 |
|---------|------|------|
| Revenue | 19 % | 11 % |
| CapEx | 16 % | 9 % |
| OpEx | 14 % | 10 % |

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

The Fund's share of sustainable investments with an environmental objective that were not aligned with the EU Taxonomy was 77%. These investments were aligned with the definition of sustainable investments given initially.

What was the share of socially sustainable investments?

The Fund's share of socially sustainable investments was 23%. These investments were aligned with the definition of sustainable investments given initially.

What investments were included under "Other," what was their purpose, and were there any minimum environmental or social safeguards?

The Fund had no investments under "not sustainable". The Fund holds a small amount of cash, but this is not considered an investment for this reporting purpose.

What actions have been taken to meet the environmental characteristics and/or social characteristics during the reference period?

The fund manager conducts an ESG analysis for all the companies invested in to ensure that the investments are aligned with the Fund's sustainable investment objective. The manager exercises active ownership through dialogue with and voting at the companies in the Fund. In addition, the Fund's principle adverse impacts (PAIs), and impact on the UN's Sustainable Development Goals (SDGs) are monitored.

are sustainable investments with an environmental objective that do not take into account the criteria for environmentally sustainable economic activities under regulation (EU) 2020/852.
